PLC & Automation Maintenance

Reliable Operation - Reduced Downtime!

Well maintained control systems and plant components assure a reliable operation. The course PLC & Automation Maintenance transfers the know-how in professional maintenance and care of your electrical installation, components and plant automation.

The course will be held at the African Milling School, where we have appropriate infrastructure with classrooms, fully equipped laboratory and school mill.

Theoretical, practical and troubleshooting knowledge transfer will empower your staff to take the best care of your equipment for reliability, efficiency and durability of your plant.

Benefits:

- Preventive maintenance and care for the electrical installations
- Reliable automation/reduced downtime
- Longevity of your plant and equipment

Course features:

- Professional training by Buhler experts
- Course materials
- Certificate of attendance

Target group

This course is suitable for staff from the grain processing industry;

- Mill Electricians
- Maintenance Engineers
- Automation Engineers
- IT in-charge

Pricing

The course costs USD 980 + 16% VAT per person. This cost excludes boarding, travel and other related expenses.

The price includes 5 days training at the African Milling School, training materials and lunch, two tea breaks.

Once confirmed we will assist with visa application and sourcing
