

African Milling School

Mechanical Maintenance

Reliable Operation - High Plant Efficiency!

Well maintained equipment and plant components assure a reliable operation. The course Mechanical Maintenance transfers the know-how in professional maintenance and care of your mechanical installation, components and plant automation.

The course will be held at the African Milling School, where we have appropriate infrastructure with classrooms, full equipped laboratory and school mill.

We teach useful theoretical and practical skills which will empower your staff to take the best care of your equipment for reliability, efficiency and durability of your plant.

Benefits:

- Preventive maintenance and care for the mechanical installations
- Reliable equipment/reduced downtime
- Longevity of your plant and equipment

Course features:

- Professional training by Buhler experts
- Course materials
- Certificate of attendance

Target group

This course is suitable for staff in the grain processing industry;

- Mill Mechanics
- Technical/Maintenance Staff

Pricing

The course costs USD 850 + 16% VAT per person. This cost excludes boarding, travel and other related expenses.

The price includes 5 days training at the African Milling School, training materials and lunch, two tea breaks. Once confirmed we will assist with visa application and sourcing for suitable accommodation and transport.
